Mini Skid Steers

S600/S600TX

There's nothing mini about their productivity

From landscape contractors to do-it-yourselfers, the Vermeer mini skid steer is a machine built for multiple applications, a machine that saves time-intensive labor, a machine that's backed by a strong dealer network. We know because we asked customers exactly what features they wanted in a mini skid steer. And when our customers talk, we listen.

The result is the S600 and S600TX, two machines built with Vermeer quality in mind. Ideal for a wide range of applications, these mini skid steers maneuver easily around tough worksites and reduce workloads in the process.

In addition to the standard 1-year / 1000-hour limited warranty, the S600 and S600TX come with the only structural warranty in the mini skid steer industry: 3 years or 3000 hours on the mainframe and boom loader arms.

Available with a 30 hp (22.4 kW) gas engine or 25 hp (18.6 kW) diesel engine.

Take control, stand tall, and ride in comfort and safety

Transport and boom bucket motion are controlled by two ergonomically designed joysticks. The handgrip is positioned to help improve operator balance while on uneven terrain.

Ground drive is controlled by a single joystick, giving the operator a smooth range of motion.

The ride-on unit comes with a spring-cushioned platform, keeping the operator out of mud and debris. At 14.5" (36.8 cm), it is high enough to enhance visibility while providing clearance for backing over curbs.

Cushions are positioned in front and on either side of the operator, increasing comfort and decreasing the chance of injury when driving over uneven terrain.

Plug it in, hook it up, and make fewer pit stops

The standard auxiliary 12-volt power port lets operators power a temporary light kit or other attachments without having to tap into the unit's existing wire harness.

Curved loader arms lift up and away from the machine, providing better height and reach for loading and unloading. This also provides the clearance necessary to avoid damaging the front of the machine when using large-diameter augers and allows an operator to dump a bucket into the center of a one-ton truck.

A universal mounting plate makes it easier for the operator to hook up various attachments.

With a 15-gal (56.8 L) fuel tank, the S600 and S600TX boast the largest tank capacity in their class, eliminating the need for refueling during the typical workday. The 14-gal (53 L) hydraulic tank is also the largest of its class, enhancing the life of the hydrostatic system by increasing dwell time of the hydraulic fluid.

Land Leveler 49" (124.5 cm) wide 170 lb (77.1 kg)

Attachments

Thanks to our wide range of attachments, Vermeer mini skid steers can be used in a multitude of applications. With universal mounting plates, it's easy to hook up a tool and get right back on the job.

Vermeer understands how choosing the right attachment for your mini skid steer can impact your bottom line. Your local Vermeer dealer can help you select the attachment best suited for your projects.

Standard Trencher

Trenches: 4 - 6" (10.2 to 15.2 cm) wide and 24 - 48" (61 to 121.9 cm) deep

Multitask Tool

24" (61 cm) wide 120 lb (54.4 kg) Includes jib pole

Special Features

• Turf-friendly tires or lug tires are available, depending on the worksite.

S600TX

- Choose 7" (17.8 cm) or optional 9" (22.9 cm) tracks to match the needs and job requirements of the customer.
- Attachments receive 13 gpm (49.2 L/min) of hydraulic flow for optimal power and efficiency.
- Sealed track roller bearings reduce daily maintenance by eliminating greasing.
- Scratch-resistant hydraulic lift cylinder rods help prevent rust.
- A hinged door in front of the machine allows easy access to the engine compartment, whether the boom is fully raised or lowered.
